

# Golden Fiber and its products

# Objectives

- Create awareness about jute and its bio-degradable properties.
- Incorporate jute products into our daily lives and fashion.
- Bring back the glory of our “Golden Fiber”.
- Promote fair trade.
- Brand environment friendly jute products.

# Mission

- Brand Eco-friendly jute products which are made in Bangladesh.
- To provide distinguished service to buyers by dedicated communication and punctuality; with no compromise in quality.
- Design to diversify existing products and develop new products to meet the needs and challenges of the local and global market.

# Core Values

- Competitiveness
- Quality of Service
- Commitment to natural fibers and eco-friendly products.
- We aim to uphold high quality, environment friendly jute products to the world.

# Why Jute?

- 100% bio-degradable.
- Cheapest and strongest natural fiber which is available in abundance.
- Promising weapon against Global Warming.
- Natural alternative to environment harming plastic bags.
- Versatile in nature.
- Improves soil fertility.
- High production efficiency compared to cotton.
- High tensile strength and ensures breathability of fabrics.

**The roots of golden fiber are strongly attached to the rich history of our motherland.**

# Sacking

Heavy duty jute bags/sacks are popular for packaging agriculture commodities like cotton, rice, coffee, cocoa beans etc. They are also used to pack fertilizer and cement. It can support heavy weights ranging from 50 to 100 kg. Food grade sacking bags are vegetable oil treated. VOT bags are preferred for storing food grains, as they allow easy breathability and air circulation. We supply high quality jute Sacks at wholesale prices.
